

# Node cum Supply NS 1

**Sharp Vision Node cum Supply NS 1** is used for providing signal to more houses by providing power to PP operating amplifiers in trunk or branch (RF) cable.

NS1 provides PP voltage (60V, 1.5 Amp.) at its RF output ports. With this supply and RF Signal up to four Amplifiers can be installed for providing signal to more houses.

## Features:

- Provide 60V, 1.5 Amp Power Supply at RF output ports.
- 60V, 1.5 Amp Power Supply can be used to feed up to 4 Amplifiers
- Fuse 1 & Fuse 2 can cut out Power Supply at RF Ports
- Built in Power Inserter
- Short Circuit Protection
- No Buzzer

# FTTH Node OX 701/ OX 702:

**Sharp Vision FTTH Node OX 701 & OX 702** are useful for providing high picture quality to many TV Sets for the same optic signal strength. It is a useful node so as to take fiber to each home so as to provide unmatched picture quality in every home.

## Features:

- FTTH fiber to The Home Node
- Low Power Consumption
- High Output Level
  - OX 701: with optic signal of 10 dBm, RF is 80dB
  - OX 702: with optic signal of 10 dBm, RF is 72dB
- Optic Level Indicator
- External SMPS Power Supply.
